Hi Jim, well the work order is on hold. Graeme just talked to me about it. I did not know that the cable is not terminated to the jacks so Rick Grant will be working with Facilities to have the wiring completed (and pay for it) and once that is done, I can get the phones/analog line installed so it may be a while.

Sorry about that. Once I hear anything I will let you know.

Mary

Great!

Also, 5-5992 will be upgraded to a 4220 phone at no charge. This is due to the phone upgrade project, any time we are moving 601 phones we are automatically upgrading them if they have not been upgraded yet.

I will email you a copy of the work order at some point today.

Hi Jim, we still need to do a work order for the circuit that was installed. It will be set up the same way as these, TF0100.

I cannot find Rm N449, can you give me the jack number?

Thanks, Mary
